

23 Sept. 2024

Subject: IATA Compliance for Cryogenic Dry Shippers

To Whom It May Concern:

VS Series cryogenic dry shipping containers manufactured by phasetwo® are compliant with the 54th Edition of International Air Transport Association (IATA) Dangerous Goods Regulation PI202-PACKING INSTRUCTION 202 for Open Cryogenic Receptacles.

These containers are safe for international shipping: IATA Dangerous Goods Regulations Exempt per Special Provision A152. Special Provision A152 applies when dry shippers are used to transport non-dangerous products that are not subject to Dangerous Goods Regulations.

The packaging must be designed to prevent pressure buildup and the release of refrigerated liquid nitrogen, regardless of the packaging's orientation.

The air waybill must include the full name and address of the shipper and consignee, and the total number and weight of packages

For further information, please contact IATA directly at:
